naturaluk

NappiCycle is a division of Natural UK Limited,
Capel Hendre Industrial Estate, Ammanford, Carmarthenshire, SA18 3SJ

Why

With nearly 3 billion* nappies thrown away every year in the UK, that's 8 million nappies per day.

At Natural UK we have developed a pioneering, environmentally friendly solution for nappy waste, NappiCycle.

- 1 Decomposition time-scale for some materials and chemicals used in disposal nappies.
- 2 Average number of nappies used per child in the UK = equivalent to 130 full black bin bags.
- 3 Nappies are thrown away everyday in the UK.

*Source: Nappy Alliance

Our aim is to develop an innovative solution for a better future for our children.

400,000 tonnes of disposable nappy waste goes to landfill each year

The Benefits

- ➔ A pioneering, environmentally friendly solution.
- ➔ Competitive pricing & flexible service options.
- ➔ 100% landfill diversion for nappy and incontinence wastes.
- ➔ Contributes to a reduction in greenhouse emissions.

The Complete Nappy Recycling Service

We can provide a bespoke and flexible environmentally friendly nappy collection service, in accordance with current legislation resulting in 100% landfill diversion for nappy and incontinence wastes.
